Muhammad Huzefa Abbasi

MOBILE APPLICATION DEVELOPER

+92 3328187814 | huzefaabbasi6@gmail.com | Website | Github | LinkedIn

Summary

Motivated Mobile Application Developer with experience in React Native, Flutter, and Node.js. Recently interned at Qwerty Experts, skilled in building user-friendly apps and tackling technical challenges with a positive attitude. Ready to contribute to innovative projects

Experience

Qwerty Experts | Mobile Application Developer Intern   **July 2024 – August 2024**

Enhanced mobile app development skills using React Native, Typescript, and Node.js. Focused on building user-friendly applications and addressing technical challenges. Contributing to innovative projects and improving development practices

DevFusion | Flutter Intern   **January 2024 – March 2024**

Developed and optimized mobile applications using Flutter and Dart. Gained hands-on experience with Firebase integration, state management, and UI/UX design, creating functional and engaging mobile solutions.

Education

COMSATS University, BS Software Engineering   **2021- Present**

CGPA: 3.87

Member of society IEEE RAS

Projects

Smart Invest | React Native

Contributed to a team where we worked on front and backend development using TypeScript. We used React Native for the frontend, and Node.js with MongoDB for the backend.

Expense Tracker | Flutter

Developed an Expense Tracker app using Flutter with Firebase Authentication and Real-time Database for managing user expenses and generating graphical reports.
